

Slice IT Project Setup Instructions

1. Log in to each computer within the classroom.
2. Have them access the website made by the Slice IT TAP team located here:

<https://tap-project-fall-2022.github.io/Slice-IT/Slice%20IT!%20Website/workshop-page.html>

3. Next navigate to the TAP website and locate the Slice IT GitHub.
4. In the Slice IT GitHub click on the folder labeled Workshop.zip.
5. Once downloaded, extract the folder into your desired location.
6. Next you will install Unity Hub if not already installed by this point.
7. Open Unity Hub and click Add in the top left section of the window.
8. Locate your extracted file from Step 4.
9. Click on "Slice-it-Game-main" and open it. Once opened click "Slice IT WORKSHOP EDITION" and then click "Open" on the entire File.

Slice IT Project Setup Instructions

10. Allow Unity Hub to download the proper Unity Version.
11. Once the project is installed navigate back to the webpage and have it idle on the computer screen before attendees arrive.
